

DETROIT ROBOTICS

COMPLEXITY. AUTOMATED.

CAPABILITIES STATEMENT

ISO
9001:2015
Certified

AS
9100D
Compliant

ISO
13485
Compliant

ITAR
SOT
Registered

NIST
800-171
Compliant

Our product is complex machined components.

Our promise is the best customer service in the industry.

You get serious quality, fast delivery, competitive pricing, and an engineering team that loves to solve problems, cut costs, and automate.

Aero &
Defense

Space &
OTS

Medical
Equipment

Robotic
Systems

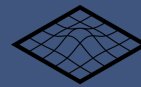

Advanced
Drilling

Rapid
Tooling

Complex machined components
with up to 125 unique features

Complete range of advanced
finishing processes

Accelerated lead times &
dynamic change requests

Consistently held tolerances up
to 0.0001 (Ten Thousand)

Rapid prototyping and low-
volume production

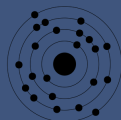

Flexible scaled production with
leading-edge automation

Full 5-Axis, 4-Axis HMC & 3+2
VMC automated machining

Fully qualified & managed diverse
secondary operations network

Excel in aero- & medical grade
materials i.e., Titanium, Inconel

Deep data capture for custom
quality reporting

Full service multi-component
program management

Fully simulated shop-wide
environment
